

PREPARATIONS ALL MADE FOR THE INFORMAL

Tickets on Sale at One O'clock
Wednesday

TUXEDOS BANNED
Cliff Menzies, Willard Crocker, and Ivan Burnell to Provide Music

On Friday night at the Union an event will take place which will open the social events for the season. It is first Informal Dance.

The ball room of the Union, where the dance is to be held has been renovated and redecorated and the Dance on Friday night will serve as a house warming. As the Union is doing the catering everyone knows that the refreshments will be the best to be had.

Cliff Menzies' "Collegian" Orchestra containing many well known musicians such as Willard Crocker and Ivan Burnell will provide the music and can be depended on to make the evening lively. This orchestra which will play at the opening of the new "tables" cabaret on Saturday night has consented to play for the dance on Friday, first.

Tuxedos as was the case last year are absolutely banned and young hopefuls must syncope in ordinary clothes or not at all.

It is noised about that a particularly attractive class of the fair sex has entered McGill this year and this ought add zest to the occasion. And if the freshmen are as fond of dancing as they are of fighting this year, a record crowd of them should be present.

It is also rumored that the committee in charge have prepared some very novel forms of entertainment and if these come up to previous standards everyone should have a good time.

The tickets go on sale at the Union at 10 o'clock on Wednesday and as the number is limited all those desiring them should be there ahead of time.

PSYCHOLOGICAL CLUB TO MEET WEDNESDAY

The first meeting of the Psychological Society of McGill University will be held on Wednesday at 5 o'clock in the psychological laboratory in the Arts Building.

Important business will be brought up and the program for the year, which is a fine one will be announced. Meetings will be held on the first Wednesday of every month this year.

The syllabus containing all information regarding this club will be published shortly. Anyone interested in the subject of psychology is invited to join. The purpose of the club is to inquire into both pure and applied psychology and to discuss problems concerning it.

ARTS UNDERGRADUATE OPENING MEETING

The Arts Undergraduate Society will hold its first meeting for this session at 12.45 today in Room 5 of the Arts Building.

All Arts students are invited to this meeting, which will be brief and strictly business in character.

It has been arranged that the 12 to 1 lecture will end at 12.45, in order that students may attend the meeting without infringement upon their noon hour.

MYSTERIOUS SIGNS DISTURB STUDENTS OF NEW YORK U.

Some there are who believe in signs even though they cannot read them. Those who find themselves included in this category are moving about the corridors of the Washington Square Building of New York University, with a restless nervousness that is at once apparent. They maintain a peculiar silence and when they do speak at all it is only in monosyllabic whispers.

There seems to be an air of impending doom and each one is asking his or herself, "Who will be the next victim?"

DELTA SIGMA TO HEAR PROF. SMITH

Address on Francis Thompson in R. V. C. Common Room

The Delta Sigma Society will hold its first regular meeting of the year on Thursday Oct. 23, at four o'clock in the R.V.C. Common Room.

The speaker will be Professor A. H. Smith, M. A., of the University of Montreal. Those who were on the Students' Tour this summer and had the pleasure of becoming acquainted with Professor Smith were charmed with his personality and with his beautiful interpretations of English literature.

The subject will be "Sane Thoughts Suggested by Francis Thompson, author of the 'Hound of Heaven'". Thompson is one of Professor Smith's favourite poets, and the talk is sure to be of interest to everybody. Tea will be served at the close of the meeting.

A very hearty invitation is given to all woman students, particularly those of the first year, and it is hoped that there will be a large attendance at this meeting so that it may be a good beginning for what is hoped will be one of the best of the year.

STUDENTS AT "UNIVERSITE" BURY TAMS

Universite de Montreal Students End Initiation

FACULTY FLOATS
Prominent Men Speak to a Large Gathering on Fletcher's Field

The Burying of the Tam took place Saturday night with due regard to all the pomp and ceremony which always attends this function.

The Burying of the Tam is an annual event, honoured by its age and eagerly looked forward to by all the students of the Universite de Montreal. Its arrival is a cause for joy among Freshmen particularly for it marks the end of initiation at the "Universite".

Part of this joy of the Freshmen is accounted for by the fact that this burial comes by the fact that this tam ceases to be a comfortable head dress.

The parade headed by the Students' Band marched up to Fletcher's Field where amid mournful airs and songs the Tam was burned and the ashes buried.

This was followed by speeches by prominent men, after which college song and yells were rendered in appropriate style.

The proceedings came to an end about 10.30 and the students quietly dispersed to their homes.

"Joe" Lemuel represented McGill and the French students with their usual consideration extended them every courtesy.

The parade was interspersed with numerous floats. The general order of the procession was as follows:—

Six mounted policemen. The students' band. Floral offerings. The chief undertaker. The High Priest and the grave-diggers. The BERT on its funeral hearse. The President of U. of M. students and the Mayor. Delegates from Laval (Quebec), McGill Queen's, and Varsity. The School of Higher Commercial Studies, and allegorical floats. Polytechnical School. School of Pharmacy. School of Veterinary Medicine. Faculty of Dental Surgery. Faculty of Science. Faculty of Medicine and floats. Faculty of Law. Six mounted policemen.

MYSTERIOUS SIGNS DISTURB STUDENTS OF NEW YORK U.

Some there are who believe in signs even though they cannot read them. Those who find themselves included in this category are moving about the corridors of the Washington Square Building of New York University, with a restless nervousness that is at once apparent. GOVERNMENT ANNOUNCES ITS CABINET

Opposition Party Still Without a Policy

GOV'T CONFIDENT
By-Election Returns Give Support to Party in Power

With the last by-election returns in the Government announces that the member elevated to the Cabinet have all been sustained at their appointments. The Government finds itself headed by one of the strong Cabinets that have been power for many seasons.

The Government has its house well in order and the Cabinet feels that it will be able to stand before the Assembly on Wednesday evening as sponsor of a sound and practical bill that should merit the support of the whole Canadian people.

But in spite of the preparation which is needed in opening this second session the Government is faced with a new perplexity.

It is rumored that when last seen the opposition were headed for the West on an electoral campaign and that, as no sound has been heard from them since, the government fears that they have been overwhelmed by the avalanche of their own verbosity or that they have been swallowed up in the great silence spaces of the West.

Meanwhile each day finds the government more strongly entrenched. The people are rallying to the support of a party that has "Canada First" as its motto and the Government are looking forward to an overwhelming victory.

The Cabinet as published by the Government follows:—

Prime Minister and secretary of state—Glasse.

Minister of Mines and Fisheries—Nairn.

Minister of Justice—O'Hagen.

Minister of Finance—Lloyd.

Minister of Interior—Fortune.

Minister of Militia and Defence—James.

Minister of Railways and Canals—Everett.

Minister of Trade and Commerce—Shepard.

Minister of Customs and Inland Revenue—Newton.

Minister of Immigration and Colonization—Cohen.

Minister of Agriculture—MacCunn.

Minister of Public Works—Mitchell.

Minister of Labor—Reid.

Solicitor General—Cope.

Postmaster General—Macmillan.

Chief Whip—James.

POINT-AUX-TREMBLE SCENE OF RIFLE SHOOT

Sunday morning saw a gathering of about twenty members of the McGill Rifle Association at Strathcona Hall getting ready for another day's shooting at the Pointe-aux-Tremble ranges. This was a very satisfactory turnout, especially considering the chilly feeling in the air. It shows clearly that the Rifle club is going to be supported strongly this season and will be able to make a real effective attempt to keep the Intercollegiate trophy in Montreal.

Most attention is being paid to the 200 and 500 yard distance as yet and the scores chalked up make it certain that competition is to be keen for the places left vacant by graduation of some of last year's sharpshooters. The newcomers, especially, are doing well and those men with little or even no previous experience are valuable and will be given every chance. One newcomer made a 33 at 500 yards, and Todd, another new man, a 34 at 200 yards and a 33 at the 500 distance. Scores of 32 and 33 were made by Reid, McNab, Herbert and several others.

The Treasurer was in evidence busily collecting the small annual fees which are now payable.

Next Sunday morning the third weekly shoot will be held and as the time is nearly here for the competition with the other colleges and is every undergraduate is welcomed and given a chance to make the team, an invitation is given to all interested to bring their lunch and sweaters and take the trip east with the club.

Birds of a feather:

The dumbbell who tipped the dumb waiter.

The absent-minded professor who put his umbrella to bed and stood up all night in the umbrella stand.

The guy who thinks eggs grow on egg plants.—(Kane's State Collegian)

JOHN BUCHAN IS TO SPEAK AT CAN. CLUB

Noted English Author at the Union

FIRST MEETING
Distinguished Service With Intelligence Department During Late War

The first speaker on the Canadian Club's programme for the coming year is to be John Buchan, the celebrated English author, with whose works most of the English speaking world is familiar.

This meeting is to be held in conjunction with the Young Men's Canadian Club of Montreal on Monday evening, November 3rd, in the Union ballroom, in order to accommodate the large audience that is expected. Col. Buchan's only other public appearance in Montreal is to be at the Women's Canadian Club.

John Buchan was educated at Glasgow University and Brasenose College, Oxford where he won numerous honours, and in 1901 he became secretary to the High Commissioner for South Africa who was Lord Milner. During the War he joined the Intelligence Department with the rank of Lieut. Col. and in 1917 he was made head of that department under the Lloyd George government. He has written many books, of them the most familiar are "Mr. Standfast," "Thirty-nine Steps," and "The Greenmantle."

Col. Buchan "is one of the speakers who are being brought out this year by the National Council of Education. The subject of his address will be announced in a subsequent issue of the "Daily."

ROYAL GAME INCREASES IN POPULARITY

Intercollegiate Golf Fri. and Sat. at Beaconsfield

VARSIY STRONG
McGill to Play Graduates Tomorrow in Preparation for Intercollegiate Play

Golf has become very popular as an intercollegiate sport, and more interest is being taken this year in the "Royal and Ancient" game than ever before.

It is interesting to know that Dr. Ruitan has presented a very handsome cup to the Intercollegiate Union to be played for annually. McGill won the cup last year against a strong team from Toronto. The McGill team had some excellent players, but unfortunately only two of last year's team will be back on the links this year. The remainder of the team will be composed of players who are making their debut in intercollegiate golf.

The Toronto team this year is exceptionally strong. They have such men as Ross Sommerville, who was runner-up in the Canadian Amateur Championships, and Don Carrick, who was runner-up in the American Junior Championships.

Of the two teams, Toronto seems to be the stronger, but that has not deterred the McGill men from practicing over the Royal Montreal Golf course.

In spite of the very cold wind and occasional flurries of snow yesterday afternoon, the whole team, with one exception, was out doing their best to get into trim for the coming struggle.

The Intercollegiate match takes place on Friday and Saturday over the Beaconsfield course.

Some of the recent graduates, led by the well known star, Mr. G. Ronald McGill, have taken a great deal of interest in the student team. It has been arranged to have a match between the students and graduates take place on Wednesday afternoon at the Beaconsfield golf course. The following men have been chosen by the executive of the golf club to meet the graduates: J. A. Cameron, L. G. Mickles, R. N. Hayes, A. W. Mitchell, B. Cochrane, Wardle B. Allan, T. McAvity, W. Powers, J. Gordon, Thos. Clarke.

The above are to catch either the C.N.R. or C.P.R. trains for Pointe Claire at 12.15 on Wednesday. If

any of them are unable to make the necessary arrangements, it will be necessary to notify either L. Mickles, P. 6079, or W. B. Allan, Up. 8633, at the earliest possible moment.

This match has been hastily arranged, and it is hoped that the executive will meet the hearty co-operation of the men chosen.

WELLS SCORES GOVERNMENT ON ITS POLICY

Opposition Leader Says Party Inconsistent

CAUCUS TO-DAY
Subsidization of Mines Government's Death-knell

"With a view of laying before all interested members of Parliament the ideas of my party I am calling a caucus at 5 o'clock this afternoon in the Lounge Room of the Union at which I and my supporters will explain the stand and attitude of the Opposition."

This was the message delivered last night by Bert Wells, leader of the Opposition in an interview with a Daily reporter in which he scored the attitude of the present government in its indifference to Dominion affairs and its lack of clear-mindedness in delaying the appointment of a cabinet to the very eve of the parliament session.

"For a Government that professes sincerity in ideas and purposes, the present administration is a most inconsistent ruling body," Mr. Wells declared reviewing briefly the situation at present existing in political circles.

"With all deference to the men opposing us, and with all due credit as to their abilities in throwing dust into the eyes of the electors I must say that their attitude at the last session has suddenly changed and they now try new tactics to hold their power," Mr. Wells vehemently stated.

He pointed out that the Government in its attitude to the miners wanted to throw more money into the hands of a clique by subsidizing the mines, a process which meant another lead for the tax payer.

"A disgrace," I say, "if such a measure passes, and surely it cannot, for, if anything, I still have confidence in my men, and in some of the members of Government, who seeing the insincerity of their party will forsake it for one that has the interests of the people, and not the clique, at heart."

"I have seen many middle-headed policies in my career as a politician, but none so extreme, so foolish, so inconsistent as this one. Nothing short of impudence to set forth a policy for robbing the tax payer of Canada and feeding him on meaningless words," declared Jack Spector, chief party whip for the Opposition, in an interview today, in which he discussed the attitude of the party he stood for.

"The vested interests back of the Government have been powerful enough to make men who had heretofore acquitted themselves honorably in public life, change coats and that for the most indefensible of reasons. Surely the Government are not serious and their illusive policies must be the direct outcome of certain Red-nose beverages," Mr. Spector said.

Other noted members of the Opposition expressed similar views announcing their determination to fight the issue to the very end in order that the Government might be defeated in their atrocious and unnatural attitude in the administration of the affairs of the Dominion of McGill.

MCGILL CHESS MEN ENTER MT'L LEAGUE

Elimination Tournament to be Held This Week

Detailed plans for the coming year were formulated yesterday afternoon at a meeting held by the McGill Chess Club in the lounge room of the Union.

It was decided to hold immediately an elimination tournament whereby members would be given the opportunity to qualify for the team which is entered in Class "B" of the Montreal Chess League. This tournament must be completed before the next meeting of the club which will be held on Wednesday next.

L. Kursner president of the club was (Continued on page two)

any of them are unable to make the necessary arrangements, it will be necessary to notify either L. Mickles, P. 6079, or W. B. Allan, Up. 8633, at the earliest possible moment.

This match has been hastily arranged, and it is hoped that the executive will meet the hearty co-operation of the men chosen.

R.V.C. '26 ELECT REPRESENTATIVES

To Junior Prom. Committee and Annual Board

A short meeting of R. V. C. '26 was held in Room 2 R. V. C. at one o'clock yesterday.

The first business was to appoint two representatives for the Junior Prom. Committee, Msh. R. Dutton and Miss M. Higginson were elected.

Following the election of this committee a discussion took place concerning the class colors for the year. It was decided to retain yellow, which the class had in its Sophomore year.

The President then urged the girls to obtain tickets for the R. V. C. Sports Day and to try to sell as many as possible.

Miss M. Dougall, class cheer leader, addressed the meeting and asked for suggestions for a Class Yell. Last year's was read and also posted on the R. V. C. Notice Board. Everyone should learn this, and it possible give some ideas for a new yell.

It was decided to elect the two representatives for the Annual Board at this meeting. Miss T. Stocking and Miss M. MacLean were appointed to fill the positions.

CHEMISTRY AT EMPIRE EXHIBITION

Chemical Society Heard Dr. Whitby—Election of Officers for Year

MEMBERS CHOSEN
Interesting Speech Made Chemical Meeting a Great Success

There was a large attendance at the first meeting of the Chemical Society for the session of 1924-25 which was held in the Chemistry Building on October 17th at five o'clock.

The result of the election of officers for the year was as follows:—

President—Mr. Paul Tarose, Sec'y Treas.—Mr. George W. Holden, Committee—Dr. Bieler, Dr. Morrison, Dr. W. W. Thompson.

The following members were elected:— Miss Chataway, Miss Robertson, Messrs. Barnes, Evans, Fowler, Matheson, McDonald, Sievertz, Stocking. (Continued on page three)

NEWFOUNDLAND CLUB HOLD FIRST MEETING

A meeting of the Newfoundland Club was held last evening in Strathcona Hall. The president, Mr. Wells, opened the meeting by welcoming the new members, and in a brief address referred to some past distinguished members, and to the successful career of the club.

Then Dr. Hatcher, the first honorary president, gave a stirring address in his own inimitable way. He urged all to covet the best for themselves and McGill.

It was decided that the present officers should carry on, till the annual dinner, when elections will take place. Francis and Quentin, of the Wesleyan and Diocesan College respectively, were elected representatives of their own college, and also members of the Social Committee.

The next meeting is to take the form of a social affair on the evening of November 20.

SKELETON OF GERMAN WOMAN STARED OHIO "CUB" IN THE FACE

studying law.

"This," said Miss Wartors, pointing to one of many soggy looking objects packed into a jar of alcohol, "is a 'miss domestica'."

There were strashoppers, beetles, earth worms, baby pigs, snakes, turtles, birds, jelly fish, horse flies, and a great many more specimens.

"Well, that is about all we have," said Miss Wartors, "drop in again sometime."

The skeleton of the German woman was staring the reporter square in the face.

"Thanks," he said, "I don't can't. I'm awfully busy this year."

PUNISH THE CRIMINALS TO CHECK CRIME

Dr. McKay Speaks Before Medical Undergrad. Meeting

LOEB-LEOPOLD CASE
Importance of Medical Evidence in Influencing Lay Mind

"We must realize our responsibility as medical men in giving professional evidence in criminal cases," said Dr. F. H. McKay, the Honorary President of the Medical Undergraduate Society, in addressing that body last night at its first regular meeting in the Medical Building.

Dr. McKay cited the recent Loeb-Leopold case as a striking example of medical evidence being used to ameliorate a death sentence. "It is the most heinous crime in the annals of criminology," he said. "The lawyers for the defense saw the impossibility of snatching the lives of these boys from the hands of the jury and pleaded their case accordingly. We are not considering the lawyer's duty nor the decision of the Judge. We are concerned with the evidence given by the medical experts. On the strength of this evidence the lawyers pleaded guilty; they pleaded that the boys were not responsible and therefore not murderers at all. They talked of their day-dreams and their fantasies, but day-dreams and fantasies do not account for murder. They gave indefinite talk about emotional insanity and flimsy reference to potential criminality. There was not, however, one disclosure of an underbalanced mind."

Dr. McKay showed how the field of Endocrinology is exploited by medical men in giving evidence. "I have read a great deal in Endocrinology but I know very little about it. Not very much is known but a good deal of dribble is written. And yet in criminal cases, when the verdict depends upon the evidence given by some doctor such evidence is put forth to influence the lay mind of the jury. At one trial the physician showed X-rays of the pituitary and the pituitary fossa and pointed out that there was sand in the pineal body. This he said was the cause of the man's insanity. This sand had the same connection to the man's crime as his toe-nail. Can one realize the ridiculousness of such evidence?" It was in this way that Dr. McKay stressed the responsibility of the medical profession in influencing the lay mind.

The speaker then brought home his point in discussing the psychology of the prevention of crime. "We must implant the instruction of fear and preservation to do away with crime," he said. He cited the following figures to explain the prevalence of murder in certain countries:

"1923, 270 murders were enacted in Chicago. Only two men were executed. In greater London in the same year there were 27 murders and 26 of the murderers were hung. These figures are taken from a report of the Commission of Crime of Chicago. The respective populations of Chicago and London are three million and seven million. There are no greater number of subterranean passages in London than in Chicago to explain this crime tendency but in London the criminal is caught and punished."

Dr. McKay believes that evidence should not be given in order to prove a criminal not responsible. Every one is responsible for their actions, and should be made to suffer for them if they conflict with the laws enacted to protect society.

Dr. McKay is Professor of Neurology. (Continued on page two)

MONTREAL, TUESDAY, OCTOBER 21, 1924.

"IN THE GOOD OLD DAYS."

Exploring among the aged historical records of Amherst College, someone found a record of rules governing student life which in the opinion of the "Amherst Student" would reduce the modern college to sackcloth and ashes. In 1824 Puritan elites of Amherst, authorities of the College, seeking to set down rules which would guide the lives of students in paths leading to peace and permanent satisfaction gathered around the council table. The result was as follows:—

"If any student shall be guilty of fighting, striking, quarreling, turbulent words or behavior, challenging, wearing women's apparel, fraud, lying, defamation, or any such like crimes, he shall be punished by fine, admonition, or otherwise, according to the nature and demerit of the crime."

Dancing, cards, games of chance, or visits to "tavern, store, house or shop" not morally approved by the faculty, brought "suspension, dismissal, or rustication, according to the aggravation of the offense."

"In no case shall a student bring into the college... any cannon, musket, pistol or other species of fire-arms, and in no case, in term time, shall any student be concerned in the discharge of firearms or fireworks in the town of Amherst..."

Alas! the day of fighting is gone. The settlement of disputes does not now involve a test of physical struggle. The physically weak man with well-developed mental powers no longer fears the giant. The invisible weapon of the former can cope with the more apparent but less effective weapon of the latter. In this respect at least society has evolved in the proper direction. "Striking"—the word has almost lost its original meaning. We cannot fail to associate it with the coal mines and industrial workers. "Turbulent words"—is it possible that the student of today thinks so independently, or has such definite opinions on any subject, that he is aroused to indulge in turbulent words in support of his opinions? We wonder. "Fraud, lying, defamation"; "dancing, cards, games of chance"—now we are treading on more familiar ground. They are the fruits of unrestricted personal freedom, some will say, bring back those good old Puritan days. But read on:—

"... and if any student shall profane the Sabbath Day by unnecessary business, or by diversion in his room, or by absence from it, on the Lord's Day, or on the preceding evening or the following evening make any disturbance—or shall behave indecently or wickedly, in time of public worship, or at morning or evening prayers, he may be punished by fine or admonition, or otherwise, as the nature of the crime shall require."

The passing of a hundred years has brought changes that would make the authors of the above extract lift their hands in horror and despair. Such restrictions on personal freedom would now be considered ridiculous. We live in "The Plastic Age." But is the plastic age developing men and women of as high ideals and character as those who lived and chafed under the seemingly severe Puritan rules of a hundred years ago? If not there is much to be said in favour of Puritan methods.

PUNISH THE CRIMINALS TO MCGILL CHESS MEN ENTER CHECK CRIME MONTREAL LEAGUE

(Continued from page one)

logy in the Faculty of Medicine and is affiliated with the Montreal General Hospital. In the beginning of his address he told the society of the aims and attainments of the Neuro-Psychiatry. "When a physician knows his Anatomy, Physiology and Bacteriology, he knows the mechanics of man. But man is not a machine. The practitioner who is to be successful in medicine must know the psychic end of his work. Because of the importance of the field the Faculty of Medicine has recently admitted a department of Psychology of which Dr. Bridges is head.

Several items of business were transacted by the meeting. Charles O'Rogan was elected Secretary, which post was left vacant by resignation of Grassick. The ancient King Cook Celebration it seems will be continued this year. Professor Simpson is of the opinion that this highly worthy institution should not go into discard.

As It Is Spoken

Prof.—"I have won. That's wrong."
"Yes, sir."
"Why is it wrong?"
"Because you ain't won yet!"
—Reflector

(Continued from page one)

In the chair, J. Taylor was elected vice-President.

In his address of welcome to both old and new members the President outlined the principles of the club.

The newly-formed constitution was read by A. Edel, the Secretary and was duly adopted.

It was undecided as to whether the entrance fee would be abolished or not. However this matter was deferred until the next meeting of the club. Draws for elimination tournament were as follows.

Round 1.—Julien vs. W. A. Pictain
Kurner vs. Crepeau
Edel vs. Pictain
Taylor vs. Pangman
Eurlie vs. Garelick
Round 2.—Julien vs. Crepeau
W. A. Pictain vs. Edel
Kurner vs. K. S. Pictain
Taylor vs. Garelick
Kurlie vs. Pangman.

Eddy—"I was talking to your girl yesterday."
Sidney—"Are you sure you were doing the talking?"
Eddy—"Yes."
Sidney—"Then it wasn't my girl!"
—Reflector

NOTICES

UNION HOUSE NOMINATIONS.

As some of the nominations for the Union House Committee have not been handed in to the Secretary, the time has been extended until 6 p.m. 16-day, Tuesday, October 21.

G. H. FLETCHER,
Sec. of S. C.

ARTS INTERFACULTY RUGBY.

The following players are requested to turn out in uniform at 4 p.m. today: Gammel, Gardner, Bronson, Bourne, Jones, Dixon, Cameron, McDonald, Tennent, Freedman, Smith, Martineau, Code, Walsh, Le Moine, Gregory, Davis, Smythe, Mundell, De Rosa, Thomas, Bell, Clarke and MacDermid.

This is the last practice before the game with Dentistry, so it is important everybody should be present.

HARRIERS.

Practices are now held daily at the Stadium at 5 p.m. This is a good way to get your gym attendance. There is a trip to Kingston for those making the team, which is composed of six men, so all out and try for a place.

SKIERS, ATTENTION.

Prospective ski runners are urged to run with the harriers. Practices daily at the Stadium at 5 p.m. Manager.

GOLF CLUB

The executive of the golf club have arranged with Beaconsfield and the Royal Montreal Golf Clubs to allow candidates for the Intercollegiate team ample opportunity for practice. The visitors register in each club must be signed. All purchases made are to be signed for by the individual and also put McGill on the bill. The following are the persons to whom these privileges are extended: J. G. Mickles Jr., Jack Cameron, R. N. Hayes, B. Cochrane, Waide Allan, A. W. Mitchell, T. McAvity, W. Powers, Steacy, West.

If those feeling they have the ability to match the team would please get in touch with W. B. Allan Up. 1653 or L. G. Mickles Pl. 6879—arrangements will be made to get these privileges extended to them. It is advisable to get in as much practice as possible.

SICK STUDENTS.

Students who are confined to their rooms or to the hospital through illness will be given flowers and other attentions by the Ladies Auxiliary of the S.C.A. Anyone knowing of sick students are asked to communicate with Mrs. Willey, Up. 3201.

SWIMMING.

The McGill hours at the K. of C. tank for water polo and swimming are as follows:

Monday, Wednesday and Friday—5.50 p.m. to 6.45 p.m.
General swim Tuesday, 2.30 to 4; Thursday, 5 to 6.
Pool also open Tuesday, 5 to 6.30; Saturday, 2 to 6.

Mr. Mark Verey will be on hand to give swimming instructions on Tuesday from 2.30 to 6.30.

GYMNASIUM CLOTHING FOR SALE.

A few suits of Gym. clothing, both old and new. Apply to the Janitor at Molson Hall.

GYMNASIUM CLASSES.

The following classes will begin today, October 20:—
Dentistry I; Commerce I; Commerce II and for Tuesday, Dentistry II.

MED. SOCCER.

All soccerites in Medicine are requested to turn out to the practices on the campus from 4-6 p.m. daily, in order that a team may be chosen for the game against Science on Thursday.

INTERFACULTY FOOTBALL.

Fifteen games in all have been arranged, and the schedule is as follows: Arts vs. Dent.—Wednesday, Oct. 22
Comm. vs. Law—Friday, Oct. 24
Med. vs. Dent.—Monday, Oct. 27
Arts vs. Comm.—Wednesday, Oct. 29.

Law vs. Sci.—Friday, Oct. 31.
Med. vs. Arts—Monday, Nov. 3.
Comm. vs. Sci.—Wednesday, Nov. 5.
Law vs. Dent.—Friday, Nov. 7.
Med. vs. Comm.—Wednesday, Nov. 12.
Arts vs. Law—Friday, Nov. 14.
Sci. vs. Dent.—Monday, Nov. 17.
As the last game comes at late as Nov. 17th, all the games must be played on their respective dates—rain or shine, and must all start at 3 p.m. sharp.

Campbell Cope, the senior manager, will supply the referees.

R. V. C. MEDICAL EXAMINATION

There will be medical examinations at R. V. C. to-day, at 3.30 p.m., for all new undergraduates who have not been examined—also for those in Years II, III, and IV who intend playing basketball, and have not yet been examined—for new undergraduates in music and medicine—for partials who intend taking gymnastics, and for Social Service Students.

This will be the last opportunity.

R. HARVEY.

FRESHETTES, ATTENTION!

To-day, all freshettes must meet in the hall outside the R.V.C. gymnasium at four o'clock sharp. For further information see R. V. C. notice board.

ARTS.

There will be a meeting of the Arts Undergraduate Society to-day, at Undergraduate Society on Tuesday at 5 minutes to 1, in Room 5.

GYMNASIUM CLASSES.

Classes for Arts and Commerce will commence on Tuesday, Oct. 21. The time table follows:—

Arts I, B.Sc.—Mondays and Wednesdays at 10 a.m.
Arts I, B.A.—Tuesdays and Thursdays at 10 a.m.
Commerce I, Mondays and Wednesdays at 10 a.m.

Commerce II, Tuesdays at 11 a.m. Thursdays at 12.

All classes have now commenced, and attendance is being taken.

TO THE MANAGERS OF ALL INTERFACULTY SPORTS.

Attendance sheets may be obtained from the office of the Secretary, Department of Physical Education. These sheets are to be turned in at the office each Monday. Attendance is now kept, and it is important that Managers should understand the regulations.

CERCLE FRANCAIS.

The next meeting of the Cercle Francais will be in the Union on Monday evening, Oct. 27. All members, and prospective members of the Cercle are asked to attend, as a very interesting programme is in store—including a debate, "Resolved that dancing is immoral." The debaters will be J. Bogante, Arts '26; G. B. Puddicombe, B.A. Law '26, affirmative; J. Helal, Law '26, and R. G. Mousseau, B.A. Law '27, negative.

ARTS '28.

A special meeting of Arts '28 will be held immediately after the English lecture in the Biological Building this morning.

It is absolutely necessary that every student of this year, whether repeating or otherwise, should be present. The final plans for the Fresh-Sph. banquet will be discussed in full.

COMMERCE BANQUET.

The annual Commerce Freshman-Sophomore banquet takes place at 6.30 this evening at the Venetian Gardens.

PSYCHOLOGICAL SOCIETY.

The first meeting of the society will be held to-morrow at 5 p.m., in the Psychological Laboratory, Arts Building. All members and prospective members are particularly asked to be present. As very important business is to be brought up, it is essential that the full membership be present.

COLUMBIAN CLUB.

There will be a short general meeting tonight at 7 p.m. It is imperative all members attend.

FENCING.

The first practice of the Fencing Club will take place today at 5 p.m., in Strathcona Hall. A large turnout is expected.

RADIO ASSOCIATION.

There will be a meeting of the Association to-morrow at 5 p.m., in the Physics Building, as the officers for this year are to be elected, a good attendance is hoped for.

BAND PRACTICE.

There will be a band practice to-morrow at 5 p.m., in the Union Ball Room.

R. V. C. TENNIS TOURNAMENT.
The last match in the semi-finals, between Miss P. Stocking and Miss M. De Blois, will be played at 10.30 this morning in the Hollow.

COMMERCE INTERFACULTY RUGBY.

There will be a scrimmage practice this afternoon at 3.30 P. M. All players are requested to turn out in uniforms as this will be the last scrimmage practice before the game with Law on Friday.

MOCK PARLIAMENT

A caucus of the government opposition is being held today at 5 o'clock in the Lounge Room. All interested are invited to be present.

SOCCER.

There will be a practice on the campus this afternoon at 4 o'clock. All those who played in Saturday's games, in addition to those who are playing in the Inter-faculty matches are asked to attend. It is necessary that as much practice be put in this week as is possible as two very important games have been arranged for Saturday, and there is also the Medicine-Science game on Thursday afternoon at 4 o'clock. Be sure you are out to-day.

ENGLISH RUGBY.

A practice game will be held on the campus this afternoon at 4.30 sharp. All men who have been out this year are requested to turn out for the work-outs this week.

CHESS CLUB.

Below is given the list of competitors in the elimination tournament for the McGill Chess Club team, together with the phone numbers of each, so that they can get in touch with one another, and play off the various games which will be announced in rounds daily. All others wishing to get into the club and try out and urged to get in touch with A. Edel, the secretary, Plateau 5439.

Arts: A. Garelick, '26, Belair 2081J. J. L. Kurner, '26, Belair 3260J. A. Edel, '27, Plateau 5439. P. D. Kurlie, '27, Strathcona Hall. K. S. Pictain and W. A. Pictain, '28, Westmount 2954W. Science: L. Crepeau, '26, Plateau 5208. E. B. Julien, '26, Uptown 3103. W. H. Pangman, '27, Westmount 3916. J. Taylor, Physics Building.

MCGILL ROWING CLUB.

5 p.m. Thursday, Music Room, Union. An open meeting will be held for the election of faculty representatives, and of a committee to look after the club property, to announce coaching and rowing hours, to make arrangements for taking members out to see the club-house and property at Lakeside, and to discuss the use of the club-house during the winter.

R. V. C. A. A.

A meeting of the R. V. C. Athletic Association will be held to-morrow at one o'clock, in the Common Room.

R. V. C. SPORTS PRACTICES.

Hurdles—Practice at 2.45 to-day.
Running Broad Jump—Eliminations will be held at the Stadium to-day between 1 and 1.30.
Javelin and Baseball Throw—Practices will be held behind R.V.C. from 1.30 to 2. Those who were not out yesterday try to be out to-day.

MUSIC CLUB.

The Music Club will meet on Thursday evening at 8.15, at the residence of the President, W. S. Sheppard, Edgell Road. Mr. S. H. Blair will speak on "Educational Value of Music."

ENGINEERS SCORE WIN OVER MEDS.

Doctors Defeated in First Game of Season
GOOD RUGBY
Science Took Large End of a 2-1 Score Yesterday

A treat was handed out to the University Rugby fans yesterday afternoon when the Science team met the Medicals in the most hotly contested and spectacular game of the season. From the time of the kick-off till the final whistle blew it was anybody's game. Both sides played consistent rugby and it became evident yesterday that with a little more practice the Medicals' team will make a strong bid for the championship.

In the first half both side played an air-tight game, but the Science team was weakened by retiring of Ellis and Norris through injuries. Fast play good running and hard kicking featured the first half with "the diminutive Hyman" taking honours in the kicking. Chisholm of Medicine staged a 70 yard run early in the period and brought the fans to their feet. Hyman kicked two rouges in this period to put his team in the scoring column.

At the beginning of the second half snow began to fall and due to this the medicine secured the ball on a fumble.

Medicine got the ball on the 10 yard line but could not push it over in three successive bucks. Hyman kicked out of danger and Science returned the ball at centre field. The Scientists' hopes ran high when Hamme Smith broke through the opposing line three times in succession for 10 yards. After running for thirty yards Chisholm kicked the only point for Medicine and the only point of the period.

After a slight scuffle in centre field medicine gained possession. Hyman and Rankin were knocked out on the field.

Irvine got away for 40 yards and again by another long run carried the ball to Medicine's 10 yard line just before the whistle blew.

Chisholm and Grassick starred for medicine and gave all they had for the whole period.

Hyman and Smith were the best for Science.

EYES.

The eye that's black
May sparkle and flash,
And conquer the heart in a minute,
Yes, yes,
And conquer the heart in a minute;
But the clear eye of blue
Half hidden from view
Has the musical charm of the linner,
Yes, yes,
Has the musical charm of the linner;
So I'll search for the eye
Half hidden and shy
With the musical charm of the linner,
And others can sigh
For the flaming black eye
For the eye that can win in a minute,
Ha, ha,
For the eye that can win in a minute.
E. Forger.

She sat on the steps one evening,
Enjoying the balmy air
He said, "May I sit beside you?"
And she gave him a vacant stare.

WRESTLING CLUB HOLDS GOOD WORKOUT

Season of 1924-25 Promises to be Lively One
WRESTLERS NEEDED
Many Last Year's Champions Out to Defend Their Laurels

A large and enthusiastic attendance marked the first meeting of the Wrestling Club in Strathcona Hall last evening and there is every indication that the sport will enjoy a most successful season this coming season. Coach George Smith is in charge again this year, and with the promising material on hand, should turn out a strong team. While there are a number of candidates in each weight, New men will be given every opportunity of making good. Macnaughton last year's Champion in the 145 pound class is out again, and also Phelps the present holder of the 185 pound championship. With the number of proficient men in these classes turning out, they should be given plenty of competition. Rumble last year's heavy weight champion has graduated, so that there will be plenty of competition for the heavy weight crown. Friedman the 175 pound champion has not made an appearance as yet, but Demitry, Inter-Faculty title holder, looks to be the logical man to take his place. Silver, Seale, Chelmer, Harvey, Greenberg and a host of new comers round out a class that promises to produce some stirring mat contests this season.

WHOSE THE BEST PROFESSION?

The customary sop was thrown to the students of engineering Saturday when Lawrence W. Wallace, secretary of the American Engineering Council, told the mhat they contribute more to modern civilization than members of any other profession.

We have heard the same thing from spokesmen addressing members of all the other colleges. The students of agriculture are informed that the world could not possibly go on without them, that all the civilization in the universe would be as nothing without the pork and beans they raise.

The students in the College of Law firmly believe, having been told, that their efforts keep the world running smoothly, that all difficulties are ironed out by them. Medics are certain, having been informed, that by setting the bones of the world they are contributing materially to the advancement of civilization, and we of journalism are quite sure, it having been pointed out to us, that by printing the news we are spreading knowledge and there is no better mission than that to turn it up, all of them believe what Mr. Wallace told the engineers, that their individual professions are "at this moment the most promising opportunity for faithful, determined, and energetic students."

There is the rub. It is not because we think our profession will be of most service to the world that we enter it. It is not because we have in mind any high ideals of service to civilization. It is for the most part merely and finally because we feel that the profession we have chosen offers the greatest opportunity for service to ourselves. Having decided that, it is easy and customary to invent some such philosophy as Mr. Wallace's to excuse our selfishness.

SENIORS WORK HARD TO GET IN CONDITION

Queen's Line is Heavy One This Year
STRONG BACKFIELD
Squad Practising Hard Getting Down Under Kicks

The senior squad had a good workout yesterday afternoon, the first after Saturday's game. The team has suffered no injuries and every man was out in uniform. The scrimmage work was attempted, the coach being satisfied in putting the team to exercises to improve the condition of the men. The coach expects a hard battle from Queen's and is trying to get the men in the best possible condition for the game. It is claimed that the Queen's line is a remarkably good one this year and in a hard game with such a team, the condition of the squad is an important factor.

The squad showed up well against the scrappy soldiers on Saturday and fought as hard as the Red-shirts themselves. However, the Queen's line is a much heavier one, and the game is certain to be a gruelling one, it was in view of the fact that the coach put the men to work on improving their condition. The work consisted chiefly in running around the field and in exercises to develop the wind and put the edge on the training. The getting down under kicks was also given attention, because it is expected that the outside will have plenty to do in this respect when the Queen's punters begin kicking. Queen's are also very strong in this department and Batstone and Lendy are wonders at running back kicks.

The coach is taking no chances and is giving every detail, however small, the best of attention. The squad is out to beat Queen's and upset the dope that since the Kingstonians downed McGill, the Tri-colour have a walk away with McGill. One thing is notice, able this year is that the team has seemed to have caught the old McGill spirit, the spirit that fights to the end.

CHEMISTRY AT EMPIRE EXHIBITION

(Continued from page one)
well, West, Sweeney, Powers, and Dr. Foster, of the Department of Physics. "Chemistry at the British Empire Exhibition" was the subject introduced by Dr. Whitby who in his masterly way briefly reviewed the chief points of interest in connection with the Chemistry Exhibits at the great Exhibition.

Sodium Silicate, a cheap inorganic colloid, is finding extensive use as an adhesive, in paper manufacture, in the hardening of cement, in the softening of water, and in soap manufacture. The Emulsifying properties of the soap by its improved by its introduction it is claimed. Many new pigments have been prepared such as a new zinc white product which does not darken on light exposure, titanium oxide, a white pigment of great covering capacity and which does not discolor on exposure to fumes. Also titanium potassium oxalate, titanium chloride and antimony oxide were mentioned in this connection. A crystal of a potassium alum weighing 200 pounds and which had required three years to grow was a thing of interest at the Exhibition.

The speaker also reviewed the various products of new processes of catalytic hydrogenation in which great progress has been made. Much attention too is being given to the utilization of waste chlorine compounds have been prepared. Among these may be mentioned a series of non-inflammable solvents, derived from ethylene and acetylene, with boiling points ranging from 55 to 187 degrees. Other outlets for Chlorine are in the manufacture of chloral from alcohol and in the manufacture of sulphur chlorides.

Attention is also being given to the use of dyes as antiseptic and therapeutic agents. Auramine was especially mentioned in this connection.

The work of Drummond in attempting an isolation to vitamins from cod liver and a demonstration of a delicate test for coal tar products in water as a result of drainage through tarred roads etc, concluded the lecture.

HARRIERS' MEETING TO-DAY AT 5 P. M.

The final arrangements of the Harriers' schedule for the season just commencing will be made at a meeting of the club in the Field House, Molson Stadium at five o'clock this evening. There is some uncertainty as to the best date for the Interfaculties meet, which must take place in the near future, and the club will decide on a day this evening. Every member, or long-distance man interested in the work of the club, is requested to attend.

Each afternoon, there are men covering the mountain courses, and more are expected now that the Intercollegiate Track meet is over. Last night, Captain Kerr and Manager Brain led about fifteen aspirants for the Intercollegiate team, and several others had worked out earlier in the day. In the next few practices the club executive hope to see every long-distance man at work, and they are especially eager to secure freshmen, whether experienced or not, for the teams of the future.

THE IMPERIAL

From the initial appearance of the Ballyhoo Trio to the final curtain of the last act the entertainment this week at the Imperial runs through a bill which will stand comparison with any of the usual vaudeville performances. The features of the opening act are of course acrobatic, the contortions of the "Boneless Ham" particularly impressing the audience. After Charles Dittmer, a really very fair singer, has rendered a few selections, Edmunds and Company appear in a skit containing nothing startling, but which "gets across" well due in the main to the facial expressions of "Tony".

Ryan, Weber and Ryan do some singing and dancing in a pretty act. The man of the trial is probably the classiest stepper but somehow he doesn't seem to be so easy to look upon as his two partners. The following performers, the Georgian Powers and Wallace present probably the best received skit of the bill. Their singing is not bad while they have some pretty snappy jokes and chatter. Ward and Van do some marvellous things with harp and violin to conclude the stage entertainment.

On the screen is shown Fox News, starring the Prince and Bucky Harris, while the feature picture is an English production "Mord Emily" with Betty Balfour, a story of comedy and tragedy around the stables of Pandora News and the great Walworth Road. The comedy is good, but the tragedy becomes monotonous. Like King Charles those dying take a long time doing it, while, unlike him, they offer no apologies for the delay.

NEW MEN WANTED FOR RUGBY SQUADS

Important Practices for Intermediate and Junior Teams

More men are needed for the Intermediate and Junior Rugby squads.

The last time McGill second and third teams played U. of M. there were not enough men to make up the line.

There is ample opportunity for new men to make a place on the squad, as the turnouts have not been at all satisfactory. Coach Shaughnessy wants every Junior and Intermediate out to-day as a very important practice is being held in preparation for the coming games.

These past few weeks have seen marked improvement in the Intermediate and Junior squads, but it must be remembered that other squads no matter how weak are very likely to prove formidable opponents.

Although McGill expected to win the game with U. of M. next Friday it should prove more interesting than the previous one, when the Frenchmen were overwhelmed by 25-0 score.

They have undoubtedly gained experience in their previous encounters which will make them a strong aggregation.

The appearance of the girl who says she doesn't like dancing often gives a wordless explanation as to the reason why.

"Is there much competition in your office?"
"Rather—between the mirror and the clock."

PHYSICAL EXAMINATION.
Wednesday, October 22, from 12 to 12:30, Dr. Harvey will be at Molson Hall at the above hour, for students desiring to be examined for competitive athletics.

TRACK MEN, ATTENTION.

All men who received any equipment from the track manager, this year, are requested to return same immediately. The manager will be at the Stadium to-day between 2:30 and 5 o'clock.

R. V. C. 28, ATTENTION!

Little Freshettes, the hearts of the Sophomores delight in your judgment of to-day. It is our privilege and duty to mete out justice to all Freshettes and we shall not neglect our solemn task. There are some of your number who have made themselves conspicuous by non-observance of the rules and regulations, and we shall not overlook them to-day. The eager eyes of the Sophomores have carefully watched "The Wearers of the Green Bow" and easily indeed can we recognise the chief offenders.

Let it be understood that all Freshettes who fail to appear to-day will sorely regret their absence. Among the many virtues of our noble class is that of punctuality and all Freshettes would do well to note this. No plea of lateness will receive our consideration nor will any infringement of our orders be tolerated.

To-day is the day and, some of you, who have disobeyed our commands, would show a spark of wisdom in saying, "To-day is the day, but what of to-morrow?" Once more let us repeat that:

All Freshettes at the hour of four must be found at the gym-room door. In that attire we ordered you with a kerchief and coppers too. Finally, O Freshettes, in the heights of our compassion, we are compelled to say "Prenez-garde!"

Sophomore Executive.

MACCABAEANS HOLD FIRST MEETING

Mr. Henry Weinfield, K.C.,
Speaks on Immigration

The opening meeting of the Maccabean Circle took place last Sunday afternoon at the Union. Mr. Henry Weinfield K. C., a prominent lawyer and member of the Community, voiced his sentiments on the recent Immigration laws of the United States and Canada. He pointed out the fallacies of the decrees and their effects on the Jews in this country and abroad. Mr. Weinfield deserves a good deal of commendation due to the fact that he had only two days in which to prepare his subject.

Mr. Bernard L. Cohen, Law '27, president of the Maccabean Circle expounded on the functions of the organization and its relative importance in College life.

Mr. Otto Klineberg of Med '25 has instituted a new element in the circle namely, the "Study Groups". The purpose of these meetings according to Mr. Klineberg, is to enhance and broaden the students knowledge of Jewish culture, both past and present. It will give the students an opportunity to get upon his feet and discuss a subject as comprehensively as he desires. The number of candidates that applied was more than expected. Mr. Klineberg, who will direct these groups, has expressed his satisfaction and hopes for a high degree of success.

Announcement of the dance which is to be held on the 23rd of November was made by Frank Gidline.

The musical programme consisted of two piano solos by Miss Dinovitzer, Miss Besner entertained with two interesting monologues.

The meeting was well attended and there were a good many new faces. Welcome was extended to all by Bernard Cohen. The meeting ended at five o'clock and the new men and women were asked to remain behind so that they could become acquainted.

GYM. CLUB WORKOUT RECRUITS ARE GOOD

The first workout of the Gym club was held yesterday from 5 to 6 in the gymnasium of the Montreal High School.

Most of the members were present and every man was put through a few preliminary movements on each piece of apparatus.

The old standbys were there along with much new material. The recruits looked very promising indeed.

Mr. Finley in a statement to the Daily urged that all prospective members be out at the next meeting for the work will quickly grow harder

and those who miss the early training will find themselves handicapped. As it is the class is beginning with the simplest movements and no previous experience is necessary in order to turn out.

"Don't mind the rain," cried the people, as they executed the king.—Ex. PERSONALS

E. P. PAYS VISIT TO HART HOUSE, TORONTO UNION

His Royal Highness the Prince of Wales paid an unofficial visit to Hart House, the students' union of Toronto University last Thursday morning.

The Prince of Wales, accompanied by Major Metcalfe, his aide, and Mr. Bickersteth, the Warden of Hart House, entered Hart House by means of the West Door. The motor had come from the King Edward Hotel, being several times held up by heavy traffic, without the Prince being recognized by anyone. Everything was carried out with the utmost secrecy. The Prince was driven down Hoskin Ave. as far as the road through the Tower and the car was parked outside the West Door. Only about one dozen persons saw the Prince on his entry into the building, so closely had his whereabouts been kept secret. Thousands of students, men and women, were standing and sitting in front of Hart House at the same time, madly eager to catch a glimpse of the "Boy-Prince".

The Staff of His Royal Highness was anxious that there should be no official atmosphere concerning the visit of the Prince. The Warden desired very definitely that the student body as a whole should know of the visit in good time, as Hart House belonged to them and they were the hosts to the Prince.

"Wonderful," "magnificent," "splendid," "amazing," "marvelous," and "beautiful," were only a few of the adjectives which the Prince used in expressing his wonderment at the magnificence of Hart House, while making the tour of inspection of the House under the guidance of the warden.

His Royal Highness expressed particular astonishment at the sight of the swimming pool and the Great Hall. He referred to the fact that the former had not been completed when he had been in Hart House during his last Canadian tour in 1919. "A wonderful place," was all he could say when the beauties in architecture of the Hall and the coats-of-arms of the various universities were shown to him.

CREDIT GIVEN FOR MILITARY SCIENCE NOW

Important Decisions Reached at Last Meeting

ENROLL AT ONCE.

Faculty of Applied Science Gives Credit to Military Science

At a recent meeting of the Faculty of Applied Science, it was that subject to the approval of the corporation, Science men will in future receive credit for Military Science.

This should come as a welcomed surprise to all men in this faculty and doubtless will increase the interest in military training at McGill.

The resolutions passed by the Faculty of Applied Science were as follows:

1.—"The Faculty of Applied Science hereby expresses its general approval of the proposal that academic credit be given for the subject of Military Science as taught by the C. O. T. C.

2.—"The Faculty accept the certificates A and B or either of them as entitling a student holding them to additional credits in his first, second or third year and to either additional credit or acceptance as an alternative course in the fourth year provided that all students proposing to apply for such credits in any session, shall register for them not later than November 1st, and shall have their course approved by the Dean and by the O. C.—C. O. T. C.

3.—"That the amount of credit to which the holder of either of these certificates is entitled is to be determined by the percentage marks assigned him by the War Office Examiners based upon the full mark value of the subject of 75 in the first, second and third year and 100 in the fourth year.

"This means that, subject to the approval of Corporation, the C. O. T. C. lectures and examinations are now a recognized course in the Faculty of Applied Science. As a general rule, it will not be possible for cadets to take their A or B certificates during their first year at the University, because a candidate must have been "efficient" from a military standpoint before his name can be entered for him to take the examination for his lieutenant's certificate. To be "efficient," a recruit must have put in 40 parade-hours, and have fired his musketry classification. Nevertheless, there may be some first year cadets, who are "trained men," that is to say, cadets who have previously returned as "efficient" in the Overseas Forces, Permanent Forces, Militia, or Senior C. O. T. C. These are eligible now to enter their names for the examinations next spring. All cadets should attend as many as possible of the forthcoming lectures whether they intend to take their examination at the close of this session or the next. They will assimilate the instruction the better, and will have the more confidence in themselves, when they take their examination.

"It will be noted that Military Science counts as a full subject in the fourth year of Applied Science. All cadets who intend to take the examinations next spring, and especially fourth year Science students, who wish to change their registration, should hand their names in as soon as possible, and certainly not later than November 1st, to the Adjutant Major Perkins, M. M., Registrar's Office, in Building. The Adjutant will meet them with regard to the necessary procedure.

All students, who are British subjects, and especially Science students, should try to get these certificates. They may make a decided difference to the final classification of a first, second, and third year Science students, and count as a full subject for a fourth year Science student; but over and above this, they qualify a man for commissioned rank in the Canadian Militia; Special Reserve, Yeomanry, Territorials, and other Reserve Forces of the Imperial Army. Because of this they have a recognized value throughout the British Empire. It is known that no man can have one of these certificates unless he is possessed of ability to command, self-control, and good powers of initiative with discretion.

"If two men are applying for a post of responsibility, and one has his lieutenant's or captain's certificate, everything else being equal there is no doubt that the man who would be chosen, would be he who has passed the examination qualifying him to be an officer."

SCIENCE SOPHOMORES HAD STORMY MEETING

Science sophomores prefer to have fresh-soph. banquet at Queen's Hotel. At a meeting yesterday afternoon the Science sophomores decided that they would suggest to the freshmen that the annual banquet be held at the Queen's Hotel. This decision was reached after a heated discussion in which the Union was strongly advocated. The majority however voted in favour of Queen's Hotel.

The sophomores also decided to exact a levy of fifty cents from each member as a class fee.

WORLD FAMOUS VOYAGER LEFT COLLEGE IN CANOE

"The first awakening among Americans of a real interest in the Far East is due to the writings of John Ledyard, the first American writer on foreign travel," states Charles Lobinger, in an article written for the Christian Science Monitor.

The Monitor goes on to say, "He was reared at Groton, Conn., by his grandfather of the same name, who had emigrated from England and who was a friend of Dr. Eleazar Wheelock, the founder of Dartmouth College. Here Ledyard became a student. During his brief stay his adventurous characteristics had been displayed by a camping expedition to the summit of one of the New Hampshire mountains and a sojourn among the Iroquois Indians on the Canadian border.

"He left Dartmouth in a canoe fashioned largely by his own hands out of a large tree and floated down the Connecticut River, astonishing the settlers along its banks.

"Ledyard shipped as a common sailor for Gibraltar, finally winding up daughter of Napoleon; memoirs; tr. fr. the Fr. by Katherine Miller.

in London, where he enlisted in the marines. Just at this time Capt. James Cook, the famous globe-trotter, was about to embark on his third and last voyage. He made Ledyard a corporal of the marines and took him along. It was on this voyage that the Hawaiian Islands were discovered and named by Captain Cook.

"Nootka Sound on the western coast of North America was the next place visited. There and later at Unalaska, he anticipated history, for Captain Cook placed him in command of an expedition into the interior, where he found Russians, nearly 90 years before America acquired sovereignty of the country. Ledyard was thus the first American to set foot on our vast Pacific territory, including Hawaii and Alaska.

"But the point of greatest interest in this connection is the insight which Ledyard acquired into the commercial possibilities of the regions visited. During the voyage he stopped at Canton and saw there the enormous trade being carried on, and in his journal of the voyage he made probably the first written suggestion of the possibilities of American trade in China."

His journal was published five years later and as Thwaites says, "It was his journal which stirred Christendom with the news of Cook's great discoveries." He also endeavored to organize an expedition to the North Pacific Ocean, but the difficulties of equipping it were too great and the enterprise was abandoned.

"His plan failed, but his efforts caused others, who soon proceeded to make his dream come true."

SCIENCE FRESHMEN MET YESTERDAY

Will Not Hold Fresh-Soph. Banquet at Union

At their meeting yesterday afternoon the Science freshmen decided not to hold the Science Fresh-Soph. banquet at the Union, but at some outside place to be selected by a committee.

After considerable arguing the Union was eliminated as a possible place to hold the banquet. The general opinion of the meeting was that the Queen's Hotel was the most desirable place. However, nothing definite was decided upon, but a committee was chosen to look into the matter more carefully and report at the next meeting.

Besides the Fresh-Soph. banquet other matters of importance were decided. Acting upon a suggestion from the chairman, the class decided that twenty-five per cent constitute its quorum. The various athletic managers were also elected. Mr. Gifford was returned as Hockey manager, and Mr. Manley will look after Basketball.

LOST

LOST.

An operator's license and Police Pass. Finder please leave with Porter at the Union.

LOST.

McGill Athlete Board Membership card with name McKilvey written on it. Please leave with Janitor of Arts Building.

LOST.

Class Pin, Commerce '25. Finder please leave with "Bill" Gentleman, Arts Building, or D. Patton, Comm. '25.

LOST.

A brown leather tobacco pouch on the south course of the Royal Montreal Golf Club at Dixie during the Student-Professor match on Friday last. Finder kindly return to the janitor of the Chemistry and Mining Building.

LOST.

A red silk parasol in section H, at the Stadium last Saturday. Finder please telephone Up. 7557, or leave with porter at Union.

Cliff: "Just burned up a \$100 bill."

John: "You must be a millionaire."

Cliff: "It is easier to burn them than to pay them."

Exchange

Although the old-fashioned "swim-when he was undressed for his swim, min' hole" has given way to the modern tiled tank, tricks so prevalent in the old days have not been abandoned.

So one student of Ohio State thought after spending the afternoon in a downtown pool.

In going, he had neglected to take with him any lock for his locker, so his clothes were left unprotected.

After an hour of diving and swimming, he returned to dress and found that his underclothes, his shirt, and his trousers had been tied in hard knots in his absence. In the absence of the culprit, the student was himself forced to "chaw beefsteak."

GIFTS Priced at \$2.00

A VERY pleasant thing it is to shop at Mappin & Webb's for the inexpensive trifles you enjoy giving now and again, as well as for important gifts.

Two dollars will buy any of a score or more charming things—silver-plated bon-bon dish, crystal and silver-plate salt and pepper shakers, a London leather bottle, silver-plated berry spoon, an Aynsley china cake plate—and ever so many more.

Our name is assurance of quality and value.

6 ANNOUNCING 6

1925 College Tours

36 days in

Great Britain, France Holland and Belgium

\$330

Including All Necessary Expenses.

Our College Tour this Summer on the Superb New Steamer Regina June 21st. was a remarkable success and the demand for further tours in this class is so marked and insistent that we now announce for 1925

From Montreal June 6-13-20-27, July 4.

From New York July 1st.

These tours will be accommodated on the magnificent new steamers REGINA and DORIC (largest steamers from Montreal), the MEGANTIC, CANADA and the giant HOMERIC (35,000 tons) from New York, the world's largest twin screw steamer.

Call, phone or write for full particulars, preliminary itineraries, etc.
